1. The first fold is a symbol of life.
2. The second fold is for our belief in eternal life.
3. The third fold is made in honor ad remembrance of the veterans departing the ranks who gave a portion of their lives for the defense of the country to attain peace throughout the world.
4. The fourth fold represents the weaker nature, for as American citizens trusting in God, it is to Him we turn in times of peace as well as in time of war for His divine guidance.
5. **The fifth fold is a tribute to America. In the words of Stephen Decatur, "Our country, in dealing with other countries, may she always be right, but it is still our country, right or wrong.**
6. **The sixth fold is where our heart lies. It's with our flag that we pledge allegiance to the flag and the republic it stands for.**
7. The seventh fold is a tribute to our Armed Forces. For it is the Armed Forces that protect our country and flag against enemies, whether they be domestic or foreign.
8. The eighth fold is a tribute to the one who entered into the valley of the shadow of death, that we might see the light of day.
9. The ninth fold is a tribute to womanhood, and Mothers. For it has been through their faith, their love, loyalty and devotion that the character of the men and women who have made this country great has been molded.
10. The tenth fold is a tribute to father, for He has given his sons and daughters for the defense of our country since he or she was first born.
11. The eleventh fold represents the lower portion of the seal of King David and King Solomon and glorifies in the Hebrew eyes, the God of Abraham, Isaac and Jacob.
12. **The twelfth fold represents an emblem of eternity and glorifies, in the Christian's eyes, God the Father, the Son and Holy Spirit.**
13. The 13th fold, or when the flag is completely folded, the starts are uppermost reminding us **of our national motto, "In God We Trust."**

1. To fold the flag correctly, bring the striped half up over the blue field.

2. Then fold it in half again.

3. Bring the lower striped corner to the upper edge, forming a triangle.

4. Then fold the upper point in to form another triangle. Continue until the entire length of the flag is folded.

5. When you get near the end—nothing but the blue field showing—tuck the last bit into the other folds to secure it.

6. The final folded flag resembles a cocked hat with only the white stars on a blue field showing.

## FLAG FOLDING

As an Army and Navy custom, the flag is lowered daily at the last note of retreat. Special care should be taken that no part of the flag touches the ground. The Flag is then carefully folded into the shape of a tri-cornered hat, emblematic of the hats worn by colonial soldiers during the war for Independence. In the folding, the red and white stripes are finally wrapped into the blue, as the light of day vanishes into the darkness of night.

This custom of special folding is reserved for the United States Flag alone.
