The 'First Chapter' of Mille Lacs Health System started in 1956 when a group of concerned citizens took it upon themselves to provide healthcare for the Mille Lacs community.

Aerial view of hospital in 1956

Over the years many 'Chapters' have taken place and the facilities have been expanded, modernized and renamed.

The most recent Chapters

In 2001, a multi-million dollar expansion and renovation:

- Nursing Home
- Operating Room
- Geri-Psych
- Radiology

2009 – 2013, departments were expanded / renovated:

- Onamia Clinic
- Pharmacy
- Outpatient Services
- Information Technology
- Health Information
- Patient Accounts
- Home Care/Hospice
- Finance and Quality

Aerial View of Mille Lacs Health System

Services currently at Mille Lacs Health System include:

- 19 Acute Care Beds
- Emergency Department
- Urgent Care
- Operating Rooms
- Respiratory Therapy
- Rehab
 - Physical Therapy
 - Occupational Therapy
 - Speech Therapy
 - Cardiac Rehab
- Geri-Psych Unit
- Long-Term-Care Unit
- Family Clinics – four sites
- Home Care and Hospice
- Ambulance Garages in Onamia & Isle
 - Radiology
 - Laboratory

Currently, there are many space needs.

The most critical areas are:

- Acute Care (inpatient beds) – privacy issues with two beds per room
- Emergency Department – has one trauma bay and three small exam areas which only have curtains between them so privacy is a major concern
- Kitchen and Cafeteria – has never been updated

Next Chapter: Building Our Healthy Future

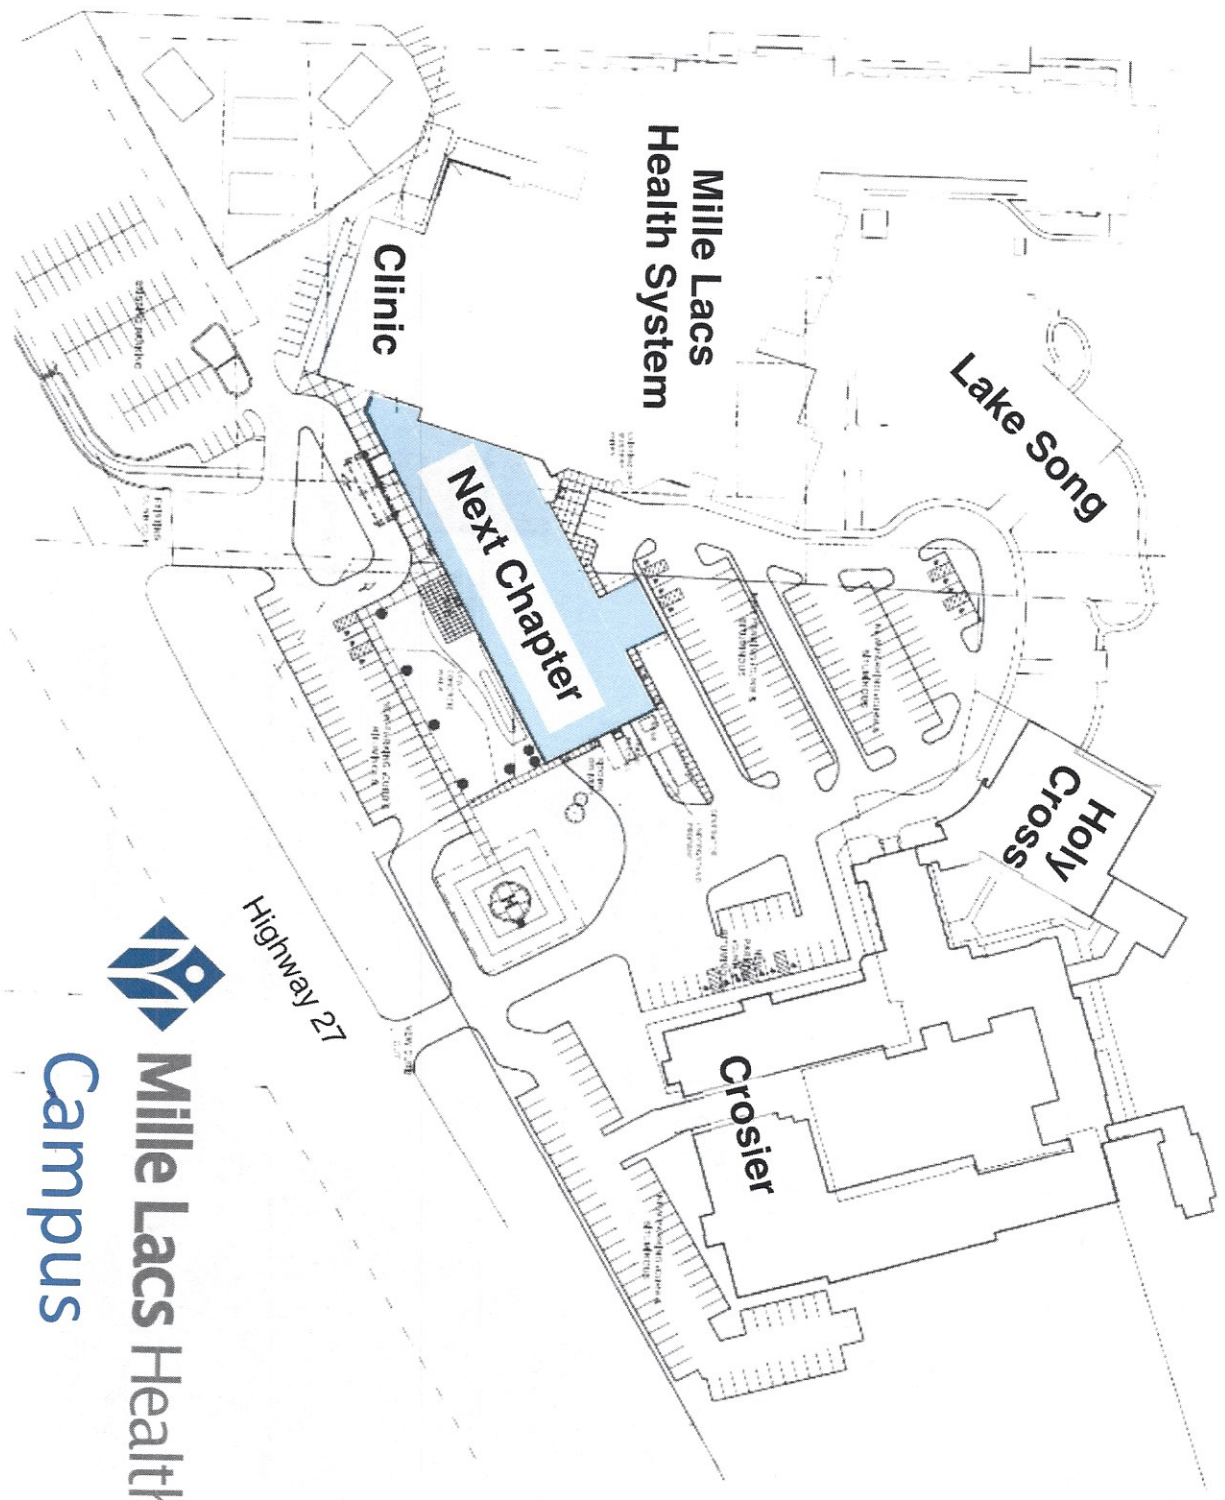

Board approves Next Chapter

The MLHS Board of Directors has evaluated the need for a new building project (**Next Chapter**) to meet the growing medical demands of the Mille Lacs area.

- A feasibility study was favorable and the board approved a plan to go ahead with the project planning, design and funding.
